

ADVANCED MONITORING FIELD SHEET

Start a new field sheet for each sample plot.

TREES THAT COUNT
TE RAHI O TĀNE

Planting name

Plot name

Plot no.

No. of plots in planting

Monitoring date

Date trees planted

Description/diagram of plot layout

(e.g. location of plots, notes on site and planted natives, etc).

Plot diameter (m) (if circular)

Plot dimensions (m) (if non-circular)

Average plot slope (degrees)

Average plot aspect (N,S,E,W)

Plot location

Latitude

Longitude

SPECIES NAME

HEIGHT (cm)

SPECIES NAME

HEIGHT (cm)

Continued next page...

SPECIES NAME	HEIGHT (cm)	SPECIES NAME	HEIGHT (cm)

Notes & comments (Optional)

Include reasons for mortality eg pest animals, weather events

Take a photo from the same position each year.

Enter your findings. Once you've captured this info you can enter your findings directly into the Monitoring section of your My Trees account at treesthatcount.co.nz
